Cary's A10 Clinical Solutions Partners with AARP and LinkedIn to Help Experienced Workers Find Jobs

CARY, N.C. – [A10 Clinical Solutions, Inc.](#), a comprehensive clinical research and healthcare delivery organization, is partnering with client AARP on its Work Reimagined program that connects employers seeking experienced workers with qualified professionals via a new digital platform from LinkedIn.

A10, along with dozens of other major forward-thinking corporations, has signed a pledge to recruit across a level playing field when considering experienced workers who bring a strong work ethic, maturity, and client business savvy. AARP announced the multi-pronged Work Reimagined online initiative today, outlining some of its key elements, which include:

- original and curated content with advice and insights relevant to experienced workers in today's job market, and
- access to current job openings with the nearly 120 employers who have taken the Work Reimagined pledge, publicly committing to treat all employees equally regardless of age.

"A10 has always been committed to a diverse workforce," says A10 President and CEO Leah Brown. "Our pledge to Work Reimagined with our long-time client AARP solidifies and perpetuates our core values to honor the maturity and qualifications that an experienced workforce can offer to propel both A10 and our nation's economy."

Digital engagement and social media have dominated and transformed the way people seek employment over the past decade, especially with unemployment rates at near-record highs in recent years. Work Reimagined integrates LinkedIn information such that qualified workers are put together in the same space with employers that value those workers.

Says AARP President Rob Romasco, "Work Reimagined enables experienced workers to come together in a vibrant online community to share your views and help move through 'what's next' career moments. It opens the way for access to workforce resources, as well as the opportunity to connect with other experienced workers in a peer-to-peer environment."

A10 is joined by employers that have also taken the Work Reimagined pledge that include BCBSNC, Merck, AT&T, Harvard University, Lowe's, and Toys R Us. More information about the program can be found at www.workreimagined.org.
